

Government Transparency

Promote accountability and build public trust

Transparency around public meetings is more important than ever. Citizens want to learn about policy decisions that affect their lives and see how their tax dollars are being spent. But, the burden and expense of managing this information is time consuming for government employees and can be cumbersome for citizens to find at complex government websites. What if you could automate this process and make it incredibly convenient for everyone?

The Government Transparency Suite helps agencies give access to all public meetings and important records online and creates an unprecedented level of openness. Leveraging a powerful media management solution, organizations can easily publish content on their website, link related documents, and provide keyword searching for citizens. Using reports on visitor trends, agencies can quickly gauge interest in the most important issues.
