

# iLegislate®

The leading application for paperless agendas

Granicus' agenda application, iLegislate®, enables government officials to review meeting agendas, supporting documents, and archived videos on any tablet or desktop that supports iOS, Android, Windows or OS X. Proven to save staff hours in their pre-meeting workflow while improving efficiencies, government agencies no longer need to spend thousands of dollars annually printing, copying, and binding meeting materials, not to mention the staff costs for collecting, organizing, and distributing these materials. Eliminate these time and material costs by introducing a completely paperless environment for agendas.

iLegislate seamlessly connects all agenda data to your tablet or desktop, automatically updating it with the latest information when online, and available for review when offline. Elected members and staff can review agendas and PDF attachments, and bookmark items of interest, while offline (currently tablet only). All of these changes are automatically backed up to the Granicus cloud when an internet connection is established.

- Convenient access to meeting agendas and supporting documents
- Reduce paper consumption and move to a paperless environment
- Review agendas and attachments offline and on-the-go
- Easily take notes and email agenda items
- Review indexed, archived meeting videos
- Public opinion placed at elected officials' fingertips

## Benefits & Functionality

### Review meeting agendas with supporting documents

Easily review upcoming and previous meeting agendas on your desktop or device. Read agenda item details, including the suggested action, by simply clicking on the item within the agenda. Download the agenda for review at your convenience.

### Stream indexed archived videos

Using H.264 technology, watch archived videos within the iLegislate application. Simply click on the videos tab and choose from the same list of archived videos available through your website including meetings, Public Service Announcements, events and more. Archived videos are indexed, making it easy to jump directly to items of interest.

### Put public opinion at elected officials' fingertips

More than digital agendas, the integration with the Citizen Participation Suite provides easy access to ideas from

the community, as well as feedback from the public on specific agenda items. Make community leaders more effective by placing public support percentages and community comments on agenda items, civic participant demographics, community improvement ideas, and more at their fingertips.

### Take notes, annotate, and bookmark specific agenda items

When reviewing an agenda item's details, users can add personal notes to an item or bookmark it for future review. Users can type notes, or mark agendas and supporting documents with highlighting, drawing, and underlining tools. We've even made note and bookmark review easier by allowing users to see all notes or all bookmarked items at once.
